Subject: Zero Glyphosate Please
Date: Wednesday, June 21, 2017 12:44:59 PM

Hello Esther.

I implore you to please change the acceptable level of glyphosate to be changed to zero.

It is killing Americans, creating sick children and babies who are so susceptible to poisons and are helpless.

Additionally, and on a larger scale, pollinators that are necessary for continuing the food we eat are being killed by the millions every day.

Please please - we want zero glyphosate to be the norm.

Thank you.
Karen Nelson
